### **Peculiarities of Chekhov's epistolary discourse**

*In the article it is performed the attempt to approximate to the consideration of A.P. Chekhov's epistolary discourse, referring to material of great Russian writer's personal correspondence. It is submitted the definition of the epistolary discourse and also its main characteristics through the lenses of which several A.P. Chekhov's letters, representing the large research interest, are described. It is proved the belonging of Chekhov's letters to the epistolary discourse. Among the peculiarities of Chekhov's epistolary discourse, it is shown the presence of the not regulated – «flexible», and not completely standardized, «semirigid» texts, as the result of crossing writer's formal and informal circles of the communication, and also the use of letter's original elements.*

**Key words:** epistolary discourse, personality, addressing, reference to the real world, modality of the reality, narrative indicative, implicitness of the information.
